Dear Hiring Manager,

I'm writing to express my interest in the Shopify Theme Editing role you've posted. As a Full Stack Developer with solid experience in HTML, CSS, Liquid, and JavaScript, I specialize in customizing Shopify themes to match brand identities and improve user experience.

In previous projects, I have:

- Edited and optimized existing Shopify themes for performance and design.
- Customized product pages, navigation, and checkout flows using Liquid and JavaScript.
- Integrated third-party apps and created custom sections to meet unique store requirements.

I'm highly detail-oriented and always focused on delivering clean, responsive, and conversion-friendly designs. Whether it's minor tweaks or full layout customization, I ensure fast turnaround and pixel-perfect results.

I'm ready to start immediately and would be happy to discuss how I can help bring your Shopify store vision to life.

Thank you for considering my application.

Sincerely,

Ahmednuur Mohamuud Warsame
