[Today's Date]

Dear Hiring Manager,

I am writing to express my interest in the junior or entry-level developer position at your organization. As a recent graduate with a Bachelor's degree in Computer Science from Jazeera University and training in Full Stack Web Development from Spondias Tech, I am passionate about building impactful digital solutions and eager to contribute to a forward-thinking team.

During my academic journey, I developed a strong foundation in programming languages such as Python, JavaScript, and PHP, alongside hands-on experience with HTML, CSS, and database systems like MySQL and MSSQL. My university project, focused on Greenhouse Agriculture Services, deepened my understanding of practical database applications and real-world problem-solving.

What drives me is a love for continuous learning, innovation, and collaboration. I enjoy working in team environments and look forward to opportunities where I can both contribute and grow under the mentorship of experienced professionals.

I would welcome the chance to bring my dedication and enthusiasm to your development team. Thank you for considering my application. I am available at your convenience for an interview and look forward to the opportunity to discuss how I can add value to your organization.

Sincerely,

Ahmednuur Mohamuud Warsame
