1. Key Parts of Your Demo Video

a) What you built

- Briefly explain what you have built, for example:
  "I have built an Applicant Tracking System (ATS) designed to manage job postings and applicant submissions."
- Mention key features like Admin dashboard, job posting CRUD, application form, and email notifications.

b) The technologies and architecture used

- Mention the technologies you used:
  "I used Django for the backend, SQLite as the database, Tailwind CSS and Animate.css for the frontend design, and Chart.js for data visualization."
- Give a brief description of the architecture, for example MVC or Django app modular design.

c) Challenges faced and your solutions

- Talk about challenges such as:
  "Form validation, handling multiple input fields, and sending emails."
- Explain how you solved these problems.

d) What you would improve with more time

- For example:
  "I would like to add complete login authentication, filtering and pagination for applicants, and improve UX/design."

2. Email Submission Draft

```
plaintext
CopyEdit
```

Subject: Full Stack ATS Exam Submission – [Your Full Name]

Dear Mizan HR Consulting Team,

Please find attached my submission for the Full Stack ATS Exam.

Included are:
- GitHub repository link: https://github.com/YourUsername/your-project
- Demo video link: [Loom or Google Drive link]
- Documentation PDFs (English and Somali)

Thank you for the opportunity to participate in this recruitment process. Please feel free to contact me if you need any further information.

Best regards,
[Ahmednor mohamod warsame]
